

ECOABRI

Easy and affordable storage
in all simplicity

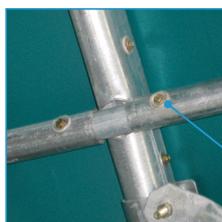

Easy and affordable storage

➤ **ECOABRI was conceived and created to simplify the storage and protection of your products.**

Designed for easy installation and removal. Saves time for you and your operations. Re-positionable - it can be set up on any type of surface, even without foundations. Its multi-purpose storage and protection (wood, feed, tractors, tools) allows for diverse applications and adaptation to your needs. With ECOABRI, storage is made practical and affordable.

The structure is assembled simply by fitting together the pieces

Solidity is reinforced through locking using self-drilling screws

- Can be installed using cords or film buried by ridging.
- Can also be secured on concrete slabs using plate legs and tie-plugs

Notes

- Structures meet the EN 13031 standard.
- Made of galvanized steel (sendzimir Z275 procedure).
- In most cases, the construction of these structures simply requires a notification to the local authority.
However the customer is responsible for finding out about any other possible administrative requirements.
- For use in areas where there is heavy snowfall, Ecoabri can be equipped with special reinforcements. *Contact us.*
- For special applications, the height can be increased up to 50cm. *Contact us.*
